**DIVISION OF
OIL, GAS & MINING**

Dear Lowell:

Enclosed is a copy of a plan of operations we have received. This plan covers operations that are ongoing. In the past a notice of intent was all that we required. However, because of the cumulative effects and because of the current use of mechanized earthmoving equipment we requested a plan. We have been working closely with the claimant. We have reviewed both proposals with ID teams during the environmental assessment process. Both are very limited in size and extent so we don't foresee any significant impact. We will require a bond and monitor the activities and reclamation.

If you have any comments or questions concerning these projects please contact myself or Rob Hamilton of this office. Thank you for your prompt consideration of this matter.

Sincerely,

Robert Hamilton
